

301 PAPER E-COMMERCE SYSTEM

Sustainability focused semi-automatic vertical bagging

The 301 Paper E-Commerce bagger is a versatile vertical bagging solution suited for products that can fit into a 18"x24" package. This hand load system is easy to operate by simply loading product through a light curtain into the paper bag forming and sealing module. Once the operator exits the light curtain the package is automatically produced. The "Right-size" bagging solution capability yields optimal bag dimensions that minimize material usage with added parcel rate savings. The 301 Paper E-commerce bagger can be integrated with multiple printer and labeler options supporting warehouse management systems.

BENEFITS

- Fiber based bagging platform supports sustainability goal initiatives
- Right size the package around the products
- Minimize material used, dimension weight freight costs savings are produced

STANDARD PRODUCT SPECIFICATIONS

Dimensions	65" W x 83" L x 85" H (90" top of light curtain)
Seal	Vertical 18" Horizontal 24"
Jaw Opening	Adjustable to 9.75"
Electrical	480 V, 60Hz, 3 Ph, 30 amps
Air	3-4 CFM per machine cycle at 80 PSI

FEATURES & OPTIONS

- User friendly Allen Bradley HMI & PLC
- Servo motor paper material feed
- Single ply material cart with 2 roll capacity - Max 12" roll diameter
- Film feed sensors for right size bagging
- Zero force palm button
- Integration with print and apply labelers
- Bar code scanner and verifier
- Discharge Conveyor
