EZ20

VERTICAL BAGGER

R&E

ROBOTICS &
END OF LINE

> Easy As One-Two-Three!

The all electric EZ20 bagging solution from Rennco provides the mighty power of our bagging solutions into a small, yet versatile, foot print. The EZ20 offers a significant cost savings over pre-made bags, utilizing centerfolded film to create custom bags tailored to your needs. Individual or multiple items can be loaded based on your particular application.

Our compact EZ20 is plug and play ready with a user-friendly HMI. Quick and easy changeovers allow for less down time, making this machine effortless and stress-free to operate. Interlocked perimeter guarding is provided for operator safety.

Standard Vertical Seal	14"
