Model 301 Vertical L bar sealer

SEMI-AUTOMATIC VERTICAL BAGGING MACHINE BENEFITS CUSTOMERS

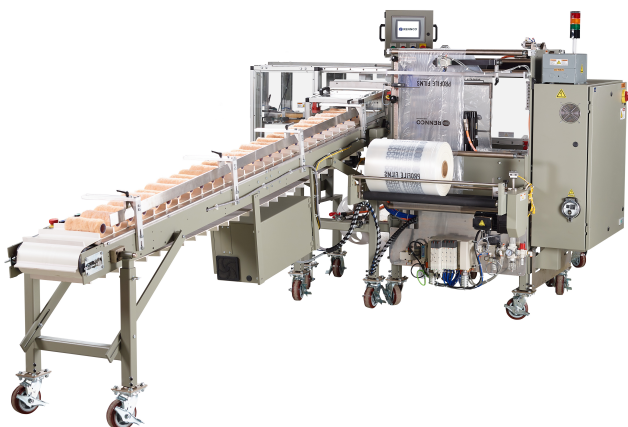

SUBSTANTIAL FILM SAVINGS ON CYLINDRICAL PRODUCTS AND PRODUCTS THAT ARE LONGER THAN THEY ARE WIDE

The Model 301 packager is a versatile packager suited for products that can fit into a 18" x 24" package. This hand load system is easy to operate by simply loading products through the light curtain into the web of film. Once the operator exits the light curtain the package is automatically produced. The Model 301 is easily integrated with multiple infeed systems to offer a more automated process.

This unit is also offered in a pouch pack configuration for kit packaging projects.

APPLICATIONS

- Hardware Kits
- Water Bottles
- Tissue Paper
- Air Fresheners
- Puzzle Pieces
- Paint Rollers
- Medical Products
- Drink Mugs
- Pipettes
