WIDE MOUTH WEIGH BAGGER

R&E

ROBOTICS &  
END OF LINE

## > Weigh bagging solutions for your laundry needs

The Rennco weigh-bin with wide mouth bagger is ideal for bagging hospital fitted sheets, ISO gowns, wash cloths, bar wipes, micro-fibers and more.

The operator loads the weigh bin with singles or batches of linens. The level of inspection is customer dependent. Once target weight is achieved, the operator simply presses the cycle switch to drop the batch onto a conveyor. The batch then travels up the incline conveyor and is automatically bagged on the wide mouth bagger.

### FEATURES AND BENEFITS

- Single scale or multiple scale options
- Simple, fast and efficient
- Bags up to 24" x 36"
- Utilizes center-folded poly versus pre-made bags
- Servo adjustable bag taper
- Custom material handling available to suit your needs
